# Lab 5 Grading

•**getty.txt**: 268 words, longest word = "proposition", word with most vowels = "proposition", first word = "above", last word = "years"

•**doi.txt:** 1325 words, longest word = "undistinguished", word with most vowels = "naturalization", first word = "abdicated", last word = "would"

•**bts.txt**: 14574 words, longest word = "obstreperousness", word with most vowels = "qualifications", first word = "abate", last word = "youth"

•**greatexp.txt**: 186685 words, longest word = "architectooralooral", word with most vowels = "architectooralooral", first word = "a'most", last word = "zest"

•**test1.turtle**, **test2.turtle**, and **test3.turtle** should all be the same result as in Lab3.

Rubric:

4	3.5	3	2.5	≤2
All outputs completely correct, with at most 1 minor error.	One output completely incorrect, or 2 - 4 minor errors.	2 outputs completely incorrect, or greater than 4 minor errors.	3 outputs completely incorrect	More than 3 outputs completely incorrect

"Minor error" refers to, for instance, getting only the number of words wrong but everything else correct in an output.
